EDUCATION

Temple University, College of Science & Technology
Bachelor of Science in Information Science & Technology

Philadelphia, PA
Graduation December 2021

Relevant Coursework: Data Structures & Algorithms, Software Design, Client-Side Web Scripting, Server-Side Web Application Development, Network Architecture, Operating Systems, Database Systems, Information System Analysis & Design, Information System Implementation, Mobile Application Development

WORK EXPERIENCE

Software Engineering Intern

Center for Public Health Law Research, Temple University School of Law

Feb 2021 – May 2021
Philadelphia, PA

- Worked with full-stack engineers to maintain the technological operation of LawAtlas.org and the MonQcle software
- Designed and maintained software structures using AWS, JavaScript, Node.js, Vue.js, GraphQL, Strapi and Machine Learning
- Wrote classifiers for AI development by writing algorithms to automatically categorize user data into different classes
- Enhanced platform performance in the rendering SDK of the MonQcle platform by optimizing code and debugging functions
- Contributed to the redesign of old components to improve user interfaces

Software Developer Intern

SocialLadder

May 2020 – April 2021
Philadelphia, PA

- Collaborated with Research & Development team to develop and execute structured manual regression JUnit testing plans for automation testing
- Worked closely with senior QA Developer to track software development process by writing out test plans and cases
- Assisted Product team with strategy implementation, defining product features, user research and UI layouts
- Deployed the automated testing process for the iOS/Android and desktop platforms with Java using Apache Maven/Selenium

Teaching Assistant

Temple University, College of Engineering

Jan 2019 – May 2019
Philadelphia, PA

- Assisted with the instruction of basic methodologies in computer-aided geometrical construction, solids modeling and isometric drawings/dimensionings

PROJECTS

Software Engineering Internship Virtual Participant

JPMorgan Chase & Co

Nov 2020 - Dec 2020
Virtual

- Contributed to an open-source interface with stock price data feed to set up a system for data analysis using Python and Git
- Implemented tools to create a chart in a trader's dashboard for front end data visualization using React and Typescript

Ocean Shopping

University of Pennsylvania PennApps

September 2020
Philadelphia, PA

- Designed and developed a full stack e-commerce web application using Node.js and a backend HTTP server that utilizes various JavaScript, C# and ASP.NET/.NET Core functions
- Implemented REST API endpoints to register user and item data, authenticate them and provide secure URLs for web pages
- Applied Microsoft SQL Server database for users, items, and other metadata

VisitUS

University of Pennsylvania PennApps

September 2019
Philadelphia, PA

- Built a full stack Node.js web application for travel booking using a backend HTTP server built in C# and .NET Core Framework
- Wrote backend APIs endpoints to authenticate and filter travel destinations as well as send automated confirmation emails

TECHNICAL SKILLS

Languages: Java, C#, C, Python, JavaScript, SQL, HTML & CSS, Go

Frameworks & Libraries: jQuery, Ajax, Bootstrap, Expo, React.js, Node.js, Angular.js, Vue.js, Typescript, ASP.NET, Flask, Strapi, Quasar

Tools/Infrastructure: Gita, Jira, TCP/IP, Networking, AWS (S3), MongoDB, Web APIs
