EDUCATION

Temple University, College of Science & Technology
Bachelor of Science in Information Science & Technology

Philadelphia, PA
Expected Graduation Fall 2021

Relevant Coursework: Data Structures & Algorithms, Software Design, Client-Side Web Scripting, Server-Side Web Application Development, Network Architecture, Operating Systems, Database Systems, Information System Analysis & Design, Information System Implementation, Mobile Application Development

WORK EXPERIENCE

Software Engineering Intern

Center for Public Health Law Research, Temple University School of Law

Feb 2021 – May 2021
Philadelphia, PA

- Worked with full-stack engineers to maintain the technological operation of LawAtlas.org and the MonQcle software
- Designed and maintained software structures using AWS, JavaScript, Node.js, Vue.js, GraphQL, Strapi and Machine Learning
- Wrote classifiers for AI development by writing algorithms to automatically categorize user data into different classes
- Enhanced platform performance in the rendering SDK of the MonQcle platform by optimizing code and debugging functions
- Contributed to the redesign of old components to improve user interfaces

Software Developer Intern

SocialLadder

May 2020 – April 2021
Philadelphia, PA

- Collaborated with Research & Development to develop and execute structured manual regression JUnit testing plans for automation testing
- Worked closely with senior QA Developer to track software development process by writing out test plans and cases
- Assisted Product team with strategy implementation, defining product features, user research and UI layouts
- Deployed the automated testing process for the SocialLadder iOS/Android and desktop platforms with Java using Apache Maven and Selenium

Teaching Assistant

Temple University, College of Engineering

Jan 2019 – May 2019
Philadelphia, PA

- Assisted with the instruction of basic methodologies in computer-aided geometrical construction, solids modeling and isometric drawings/dimensionings

PROJECTS

Software Engineering Internship Virtual Participant

JPMorgan Chase & Co

Nov 2020 - Dec 2020
Virtual

- Utilized JPMorgan frameworks and tools to complete task modules for interfaces with stock price data feeds in Python
- Established an understanding of data visualization in front-end development as well as developing and analyzing data

Ocean Shopping

University of Pennsylvania PennApps

September 2020
Philadelphia, PA

- Designed and developed a real-time e-commerce web application that utilizes various JavaScript, C# and ASP.NET functions
- Implemented REST API endpoints to register user and item data, authenticate them and provide secure URLs for web pages
- Applied Microsoft SQL Server database for users, items, and other metadata

VisitUS

University of Pennsylvania PennApps

September 2019
Philadelphia, PA

- Designed and developed a full-stack Node.js web application built in C#, JavaScript and .NET Core framework
- Implemented backend APIs to authenticate destination and travel data, and databases to store other metadata

TECHNICAL SKILLS

Programming & Markup Languages: Java, C++, C#, JavaScript, Python, HTML5, CSS3, SQL

Packages/Libraries: jQuery, Ajax, Bootstrap, React.js, Node.js, Angular.js, Vue.js, ASP.NET, Flask, Linux

Other: Amazon Web Services, MongoDB, iOS, Git, Jira, Oracle, Web APIs, GraphQL, Quasar, Strapi, Selenide, UI/UX Design
